

1. Record Nr.	UNINA9910337886403321
Titolo	5th International Conference on Geofoam Blocks in Construction Applications : Proceedings of EPS 2018 // edited by David Arellano, Abdullah Tolga Özer, Steven Floyd Bartlett, Jan Vaslestad
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-319-78981-3
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (VII, 373 p. 281 illus., 221 illus. in color.)
Disciplina	624.151
Soggetti	Geotechnical engineering Engineering geology Mechanics, Applied Solids Building materials Ceramic materials Geotechnical Engineering and Applied Earth Sciences Geoengineering Solid Mechanics Building Materials Ceramics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Dedication -- Present use of Geofoam -- Expanded Polystyrene -- Material properties and modeling -- Design specifications -- Construction applications -- New concepts and special topics.
Sommario/riassunto	These proceedings of the EPS 2018: 5th International Conference on Geofoam Blocks in Construction Applications, held in Kyrenia, Northern Cyprus on May 9 to 11, 2018, present a collection of contributions on the state-of-the-art of research and applications relating to geofoam. Geofoam researchers, consultants, molders, contractors and practitioners from all around the globe discuss the recent developments and future trends of expanded polystyrene (EPS)-block

geofoam technology and its construction applications. EPS'18 contributes to the development of geofoam applications, following on from successful conferences in Oslo (1985), Tokyo (1996), Salt Lake City (2001) and Oslo (2011). The book discusses topics including, but not limited to, current use of geofoam, design specifications, applications, new concepts, material properties, modeling and specific topics in geofoam blocks in construction applications.
