| Nota di contenuto       | 1. Introduction -- 2. General Introduction on the Democratic Republic of Congo -- 3. Child Soldiering Global Perspectives and in the Democratic Republic of Congo -- 4. Reintegrating and Healing Child Soldiers -- 5. Child Protection and Accountability -- 6. Restorative Justice in Theory -- 7. An Integrative Approach to Child Soldiering Accountability -- Transitional Justice from an African Perspective -- 9. Research Design and Methodology -- 10. Diagnosing the Problem: Perspectives from the Field -- 11.Accountability and Reintegration of Child Soldiers via Baraza -- 12. Restorative Justice Peacemaking Circles and Child Soldiering -- 13. Preventing Child Soldiering -- 14. Conclusions and Recommendations. |

This book presents five critical dimensions on relationships, institutions, production, organisation, and governance from design and systems perspectives for the systematic transition of unstable and vulnerable communities across the world to sustainable community systems. • The first section discusses features of relationships and processes to deepen cooperation and trust within a community. • The second section examines institutions within and outside a district to foster synergy across institutions within a district and to minimise negative externalities on local communities within a district. • The third section deals with food production systems that are nature-friendly, resilient, efficient and sustainable. • The fourth section discusses the design of producer organisations that can graduate to become sustainable community enterprise systems. • The fifth section focuses on community governance that can facilitate decentralised, participatory, transparent and democratic local governance systems. This book • offers a fresh perspective on design thinking for optimising internal design consistencies. • provides a systems perspective on building sustainable community systems at the lowest governance unit in different countries, such as Ward/Gram Panchayat/Panchayat Council/Gewong/Union Council/GN. • gives insights into design & systems perspectives towards building sustainable community systems within a district of any country across the world.
