Government as a British Conservative Understands It: Comments on Oakeshott's Views on Government -- 10. Global Governance and the "Clandestine Revolution": From the Legal State to the Judicial State -- 11. Three Different Critiques of Rationalism: Friedrich Hayek, James Scott and Michael Oakeshott.

Sommario/riassunto

Michael Oakeshott on Authority, Governance, and the State presents contributions on one of the most important British philosophers of the 20th century. These essays address unique and under-analyzed areas in the literature on Oakeshott: authority, governance, and the state. They draw on some of the earliest and least-explored works of Oakeshott, including his lectures at Cambridge and the London School of Economics and difficult-to-access essays and manuscripts. The essays are authored by a diverse set of emerging and established scholars from Europe, North America, and India. This authorial diversity is not only a testimony to the growing international interest in Oakeshott, but also to a plurality of perspectives and important new insights into the thought of Michael Oakeshott.
