Sommario/riassunto

This book takes up a wide variety of human security challenges beyond the dimension of human conflict, and looks at both natural and human disasters that the East Asian region faces or is attempting to resolve. While discussing various human security issues, the case studies offer practical lessons to address serious human security challenges in the framework of the ASEAN Plus Three and beyond. Against the backdrop of multifaceted globalization and parochial reactions thereto, this book is a powerful contribution to universal human security. Carolina G.
