

1. Record Nr.	UNINA9910338233603321
Autore	Paladini Stefania
Titolo	The new frontiers of space : economic implications, security issues and evolving scenarios / / Stefania Paladini
Pubbl/distr/stampa	Cham : , : Palgrave Macmillan imprint is published by Springer Nature, , [2019] ©2019
ISBN	9783030199418 303019941X
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (xviii, 313 pages) : illustrations
Disciplina	629.4 333.94
Soggetti	Technological innovations New business enterprises Venture capital International economic integration Globalization Aerospace engineering Astronautics Nonprofit organizations Security, International Innovation and Technology Management Start-Ups and Venture Capital Emerging Markets and Globalization Aerospace Technology and Astronautics Non-Profit Organizations and Public Enterprises International Security Studies Enginyeria aeroespacial Vol espacial Espai en economia Astronàutica i civilització Astronàutica - Aspectes econòmics Dret espacial Turisme espacial
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa

Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Introduction -- 2. A Snapshot of Space: 2018 -- 3. The Business of Space -- 4. Europe in Space and the Space in Europe: A Complex Relationship -- 5. Beyond Europe: Space Powers Around the World -- 6. Space Diplomacy: Traditional and Non-traditional Security Issues -- 7. The Legal Dimensions of Space -- 8. A Changing Space: Trends of the 21st Century -- 9. Beyond Space Fiction -- 10. Conclusions.
Sommario/riassunto	<p>There are few industries in today's world as dynamic and dramatically changing as the space sector, with new ventures and initiatives being announced on a daily basis. As well as emerging countries improving their launching and manufacturing capabilities, private actors are beginning to join public bodies in the space race, and participating in what is frequently being referred to as the new space era. With fantastic opportunities arising for business and economics, this book provides a comprehensive overview of the space sector, exploring recent initiatives, and the most important areas of investment in the industry, including emerging fields of activities such as asteroid mining and space tourism. It also addresses traditional and non-traditional security issues in the sector, together with discussing their legal implications. This interdisciplinary book provides insights for practitioners and researchers alike, particularly those involved in technology and innovation management, emerging markets, international relations, and security studies.</p>
