

1. Record Nr.	UNINA9910438255103321
Autore	Zorloni Alessia
Titolo	The economics of contemporary art : markets, strategies and stardom / / Alessia Zorloni
Pubbl/distr/stampa	Hoboken, N.J., : Springer, 2013
ISBN	3-642-32405-3
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (182 p.)
Disciplina	306 306.3 330 338.5
Soggetti	Art, Modern - Prices Art, Modern - Economics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Introduction -- The Economics of Creativity Between Culture, Innovation, and Competitiveness -- The System of Contemporary Art -- Contemporary Art Markets and Supporting Sectors -- Art Appraisal and Value Creation Strategies -- Collecting: Motivations and Patterns of Consumption.
Sommario/riassunto	The book examines the contemporary art system with a broad and systematic approach, through the application of models of microeconomics and industrial organizations. By breaking down the traditional barriers between different academic disciplines such as art and economics, this book offers a unique opportunity to grasp the complexities of the contemporary art world and provides the tools to conduct a structural analysis of that market. The result is an in-depth analysis of the contemporary art market from an interdisciplinary perspective. While it is not a textbook in the strictest sense, the book offers a concise and effective overview of all actors in the art system, and provides supporting data and valuable information, both conceptual and practical. It is therefore a text that can be used by students wishing to better understand the complex dynamics that govern the contemporary art market, but also by cultural managers,

collectors, potential art investors or simply art lovers who need a quick reference.

2. Record Nr.	UNINA9910338258103321
Autore	Gupta Vijay
Titolo	Moments of Linear Positive Operators and Approximation // by Vijay Gupta, Michael Th. Rassias
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-19455-8
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (102 pages)
Collana	SpringerBriefs in Mathematics, , 2191-8201
Disciplina	510 515.9
Soggetti	Functions of complex variables Differential equations Functional analysis Functions of a Complex Variable Differential Equations Functional Analysis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	1. Some Positive Linear Operators and Moments -- 2. Integral Type Operators and Moments -- 3. Approximation Properties of Certain Operators.
Sommario/riassunto	This book is a valuable resource for Graduate students and researchers interested in current techniques and methods within the theory of moments in linear positive operators and approximation theory. Moments are essential to the convergence of a sequence of linear positive operators. Several methods are examined to determine moments including direct calculations, recurrence relations, and the application of hypergeometric series. A collection of operators in the theory of approximation are investigated through their moments and a variety of results are surveyed with fundamental theories and recent

developments. Detailed examples are included to assist readers understand vital theories and potential applications. .
