   Note generali   Description based upon print version of record.

   Nota di bibliografia   Includes bibliographical references (p. [158]-166) and index.

   Nota di contenuto   pt. A. Capacity development in practice : issues, potentials and critical considerations -- pt. B. Casebook of experiences and lessons.

   Sommario/riassunto   The third and final in a series, this text bridges the conceptual foundations of capacity development and the difficulties and practical

realities in the field. It demystifies the process of capacity development to make it more user-friendly. The book has two parts. The first shows how long-standing development dilemmas can be turned into opportunities for capacity development and societal transformation. It proposes a set of principles to guide the search for context-specific approaches as the norm, and based on these default principles the authors explore relevant issues in comprehensible st
