Sommario/riassunto	Southeast Asian Affairs 2006 provides an informed and readable analysis of the events and developments in the region in 2005. The first four articles present the political and economic overview of the region, a nuanced analysis on terrorism, and the role of Japan in East Asian community-building efforts. Eleven country reviews as well as five special theme articles follow, delving into domestic political, economic, security, and social developments during 2005 and their implications for countries in the region and beyond.
