Sommario/riassunto	Uma Conferencia sobre Etica (A Lecture on Ethics) de Ludwig Wittgenstein constitui uma importante reflexao sobre o problema da etica. Ocupa um lugar central entre as tomadas de posicao relativas a este problema - e nao sera exagero dizer que representa, sem duvida, uma das mais notaveis no pensamento do seculo XX. Mas o mais importante nao e propriamente a relevancia historica. O mais importante e que este texto - o complexo dos problemas e perspectivas que desenha, a interpelacao de que e portador - representa um elemento incontornavel, que nao pode deixar de ser considerado por quem quiser confrontar-se com o problema da etica. Ou seja, este e um texto indispensavel para quem quiser "instruir o processo" da etica (do seu cabimento, do seu sentido, das suas implicacoes) de forma efectivamente critica - i. e., a pensar por si mesmo, mas ao mesmo tempo tambem com a preocupacao de nao deixar de fora nada que, mesmo que observado por outrem, possa ser relevante e ter peso para a apreciacao do problema na sede propria do pensar por si.

Sommario/riassunto

The politics of identity and ethnicity are resurgent. Civil society, whose revival was much vaunted, was riven by communal tensions particularly of ethnicity and religion. The contributors address questions such as: Why is ethnicity a political problem? How is the problem manifested? Which institutional models offer ways of ameliorating the challenges that ethnicity poses to democratic nation-building? North America: Ohio U Press
