

1. Record Nr.	UNINA9910716991703321
Autore	Dawson John R.
Titolo	Hydrodynamic and aerodynamic tests of four models of outboard floats (N.A.C.A. Models 51-A, 51-B, 51-C, and 51-D) // by John R. Dawson and Edwin P. Hartman
Pubbl/distr/stampa	Washington, [D.C.] : , : National Advisory Committee for Aeronautics, , 1938
Descrizione fisica	1 online resource (21 pages, 23 unnumbered pages) : illustrations
Collana	Technical note / National Advisory Committee for Aeronautics ; ; No. 678
Soggetti	Seaplanes - Hydrodynamics Pontoons - Aerodynamics Drag (Aerodynamics)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"December 1938." No Federal Depository Library Program (FDLP) item number.
Nota di bibliografia	Includes bibliographical references (page 17).

2. Record Nr.	UNINA9910346674803321
Autore	Hay Phillipa
Titolo	Eating Disorders and Obesity : : The Challenge for Our Times / / Phillipa Hay, Deborah Mitchison
Pubbl/distr/stampa	MDPI - Multidisciplinary Digital Publishing Institute, 2019 Basel, Switzerland : , : MDPI, , 2019
ISBN	9783038979999 3038979996
Descrizione fisica	1 electronic resource (274 p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Eating Disorders have traditionally been considered apart from public health concerns about increasing obesity. It is evident that these problems are, however, related in important ways. Comorbid obesity and eating disorder is increasing at a faster rate than either obesity or eating disorders alone and one in five people with obesity also presents with an Eating Disorder, commonly but not limited to Binge Eating Disorder. New disorders have emerged such as normal weight or Atypical Anorexia Nervosa. However research and practice too often occurs in parallel with a failure to understand the weight disorder spectrum and consequences of co-morbidity that then contributes to poorer outcomes for people living with a larger size and an Eating Disorder. Urgently needed are trials that will inform more effective assessment, treatment and care where body size and eating disorder symptoms are both key to the research question.
