

1. Record Nr.	UNINA9910346761203321
Autore	Gitte Christian
Titolo	Informationsarchitekturen fur kunftige Energievertriebe
Pubbl/distr/stampa	KIT Scientific Publishing, 2017
ISBN	1000070129
Descrizione fisica	1 online resource (XII, 353 p. p.)
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Digital products and services are changing the energy utilities deeply. In energy sales the product complexity as well as the fast-developing information technology lead to disruptive changes and new competitors. In this book a comprehensive market analysis collects systematically requirements for upcoming information architectures. Subsequently presented recommendations incorporate generalized IT enterprise architectures, new approaches for product development and useful tools.
