

1. Record Nr.	UNINA9910346773103321
Autore	Hayn Marian
Titolo	Modellgestützte Analyse neuer Stromtarife für Haushalte unter Berücksichtigung bedarfsorientierter Versorgungssicherheitsniveaus
Pubbl/distr/stampa	KIT Scientific Publishing, 2016
ISBN	1000053095
Descrizione fisica	1 electronic resource (XX, 334 p. p.)
Collana	Produktion und Energie / Karlsruher Institut für Technologie, Institut für Industriebetriebslehre und industrielle Produktion u. Deutsch-Französisches Institut für Umweltforschung
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The central elements of this work are the design of an electricity tariff with variable capacity prices accepted by residential customers and the question how this tariff affects demand flexibility. Therefore, a corresponding tariff concept is developed. Based on an empirical study its acceptance and specific design is analyzed. The impact of different electricity tariffs on demand flexibility is analyzed with a developed bottom-up model for residential load profiles.
