Titolo	Cross-border Mobility for Electric Vehicles: Selected results from one of the first cross-border field tests in Europe
Pubbl/distr/stampa	KIT Scientific Publishing, 2016
ISBN	1000052445
Descrizione fisica	1 electronic resource (XVII, 207 p. p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book provides selected results from the accompanying research of the project CROME. The vision of the project was to create and test a safe, seamless, user-friendly and reliable mobility with electric vehicles between France and Germany as a prefiguration of a pan-European electric mobility system. Major aims were contributions to the European standardisation process of charging infrastructure for electric mobility and corresponding services, and to provide an early customer feedback.
