

1. Record Nr.	UNINA9910346782903321
Autore	Wittern John Erik
Titolo	Modeling and Selection of Software Service Variants
Pubbl/distr/stampa	KIT Scientific Publishing, 2015
ISBN	1000045936
Descrizione fisica	1 online resource (VIII, 232 p. p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Providers and consumers have to deal with variants of software services, which are alternative instances of a services design, implementation, deployment, or operation. This work develops the service feature modeling language to represent software service variants and a suite of methods to select variants for development or delivery. An evaluation describes the systems implemented to make use of service feature modeling and its application to two real-world use cases.
