

1. Record Nr.	UNINA9910346922803321
Autore	Wölfel Matthias
Titolo	Robust automatic transcription of lectures
Pubbl/distr/stampa	KIT Scientific Publishing, 2009
Descrizione fisica	1 online resource (XXVI, 173 p. p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Automatic transcription of lectures is becoming an important task. Possible applications can be found in the fields of automatic translation or summarization, information retrieval, digital libraries, education and communication research. Ideally those systems would operate on distant recordings, freeing the presenter from wearing body-mounted microphones. This task, however, is surpassingly difficult, given that the speech signal is severely degraded by background noise and reverberation.</p>
