

1. Record Nr.	UNINA9910483858103321
Titolo	Encyclopedia of Aging and Public Health [[electronic resource] /] / edited by Sana Loue, Martha Sajatovic
Pubbl/distr/stampa	New York, NY : , : Springer US : , : Imprint : Springer, , 2008
ISBN	0-387-33754-7
Edizione	[1st ed. 2008.]
Descrizione fisica	1 online resource (10 illus. eReference.)
Collana	Springer reference
Disciplina	61397003
Soggetti	Public health Public Health
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	I. Foundation Topics -- The History and Demography of Aging in the United States -- The Biology of Aging -- Cultural Diversity Among Elders in the U.S -- Legal Aspects of Aging.-The Participation of Cognitively Impaired Elderly in Research -- II. Topics in Aging and Public Health.
Sommario/riassunto	Americans are living longer, and the elder population is growing larger. To meet the ongoing need for quality information on elder health, the Encyclopedia of Aging and Public Health combines multiple perspectives to offer readers a more accurate and complete picture of the aging process. The book takes a biopsychosocial approach to the complexities of its subject. In-depth introductory chapters include coverage on a historical and demographic overview of aging in America, a guide to biological changes accompanying aging, an analysis of the diversity of the U.S. elder population, legal issues commonly affecting older adults, and the ethics of using cognitively impaired elders in research. From there, over 425 entries cover the gamut of topics, trends, diseases, and phenomena: -Specific populations, including ethnic minorities, custodial grandparents, and centenarians -Core medical conditions associated with aging, from cardiac and pulmonary diseases to Parkinson's and Alzheimer's -Mental and emotional disorders -Drugs/vitamins/alternative medicine -Disorders of the eyes, feet, and skin -Insomnia and sleep disorders; malnutrition and eating disorders -Sexual and gender-related concerns

-And a broad array of social and political issues, including access to care, abuse/neglect, veterans' affairs, and assisted suicide Entries on not-quite-elders' concerns (e.g., midlife crisis, menopause) are featured as well. And all chapters and entries include references and resource lists. The Encyclopedia has been developed for maximum utility to clinicians, social workers, researchers, and public health professionals working with older adults. Its multidisciplinary coverage and scope of topics make this volume an invaluable reference for academic and public libraries.

2. Record Nr.	UNINA9910787022503321
Titolo	Casebook of neuropsychiatry / / edited by Trevor A. Hurwitz, Warren T. Lee
Pubbl/distr/stampa	Washington, District of Columbia ; ; London, England : , : American Psychiatric Publishing, , [2013] ©2013
ISBN	1-58562-992-8
Descrizione fisica	1 online resource (384 p.)
Disciplina	616.8909
Soggetti	Psychiatry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Cover; Contents; Contributors; Introduction; Acknowledgments; 1 Psychobehavioral Disinhibition; Dopamine Excess in Parkinson's Disease; Mania Associated With Brain Injury; Neuropsychiatric Manifestations of a Paraneoplastic Syndrome; Aggression and Brain Injury; Disinhibition Mistaken for Mania; 2 Apathy; Apathy in Frontal Lobe Injury; 3 Depression; Major Depression and Panic Disorder Following Epilepsy Surgery; Poststroke Depression; Psychiatric Aspects of Multiple Sclerosis; 4 Anxiety; Temporal Lobe Epilepsy Presenting as Panic Attacks Secondary Obsessive-Compulsive Disorder Associated With Pallidal Lesions5 Psychosis; Dementia With Lewy Bodies; Temporal Lobe

Epilepsy Psychosis and Depression; Frontal Lobe Epilepsy and Its Neuropsychiatric Manifestations; Atypical Psychosis in Mitochondrial Disease; 6 Hyperkinetic States; Tourette's Disorder in Adults; Psychosis Associated With Huntington's Disease; Tardive Dyskinesia; 7 Somatoform and Somatoform-Like Disorders; Multiple Physical Symptoms That Remain Undiagnosed; Complex Illness After a Fall; Lyme Disease; Epilepsia Partialis Continua and Pseudoseizures; Cogniform Disorder
8 Alterations in ConsciousnessHashimoto's Encephalopathy; Dissociative Disorders; Anti-NMDA Receptor Encephalitis; Neuroleptic Malignant Syndrome; Neuropsychiatric Systemic Lupus Erythematosus; 9 Memory Failure; Amnesia Associated With Epilepsy; Memory Loss Associated With Herpes Simplex Encephalitis; 10 Intellectual Failure; Frontotemporal Dementia; Dementia Syndrome of Depression; Psychosis and Cognitive Impairment in an Adolescent; Cognitive-Intellectual Dysfunction in Multiple Sclerosis; Postconcussive Syndrome and Depression After Mild Traumatic Brain Injury
Tuberous Sclerosis Mistaken for Attention-Deficit/Hyperactivity Disorder11 Focal Neurobehavioral Syndromes; Balint Syndrome; Left Hemispatial Neglect; Index; A; B; C; D; E; F; G; H; I; J; L; M; N; O; P; Q; R; S; T; V; W; Y; Z

Sommario/riassunto

<P>Casebook of Neuropsychiatry is comprised of 38 clinical cases based on real patient interactions that straddle the domains of neurology and psychiatry. The book is designed to supplement comprehensive texts by providing real-world accounts of patient presentations that clinicians are likely to encounter. </P>

ISBN	1000008476
Descrizione fisica	1 electronic resource (VIII, 356 p.)
Collana	Schriftenreihe des Instituts für Angewandte Informatik - Automatisierungstechnik, Universität Karlsruhe (TH)
Soggetti	Technology: general issues
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Dieses Buch systematisiert Ziele, Einsatzszenarien, Vorgehensweisen, Methoden und Anwendungsfelder für eine automatisierte Datenanalyse in der Medizin und Medizintechnik. Es wendet sich hauptsächlich an Doktoranden, Diplom- und Masterstudenten der Ingenieurwissenschaften und Informatik. Im Mittelpunkt steht dabei das Spannungsfeld zwischen medizinischen Anwendern und ihren Zielstellungen sowie den Potenzialen vorhandener Data-Mining-Verfahren.
