

1. Record Nr.	UNINA9910346934203321
Autore	Fett Theo
Titolo	Stress Intensity Factors - T-Stresses - Weight Functions
Pubbl/distr/stampa	KIT Scientific Publishing, 2008
ISBN	1000007996
Descrizione fisica	1 electronic resource (XVI, 362 p. p.)
Collana	Schriftenreihe des Instituts für Keramik im Maschinenbau - IKM
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Failure of cracked components is governed by the stresses in the vicinity of the crack tip. The singular stress contribution is characterised by the stress intensity factor K, the first regular stress term is represented by the so-called T-stress. Sufficient information about the stress state is available, if these two parameters are known Results for K and T are compiled in form of figures, tables, and approximate relations.
