

1. Record Nr.	UNINA9910346936403321
Autore	Mundt André Philipp
Titolo	Dynamic risk management with Markov decision processes
Pubbl/distr/stampa	KIT Scientific Publishing, 2008
ISBN	1000007337
Descrizione fisica	1 online resource (XIV, 135 p. p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	An important tool in risk management is the implementation of risk measures. We study dynamic models where risk measures and dynamic risk measures can be applied. In particular, we solve various portfolio optimization problems and introduce a class of dynamic risk measures via the notion of Markov decision processes. Using Bayesian control theory we furthermore derive an extension of the latter setting when we face model uncertainty.
