

1. Record Nr.	UNISALENTO991003685499707536
Autore	Hirzebruch, Friedrich
Titolo	O(n)-Mannigfaltigkeiten, exotische Sphären und Singularitäten [e-book] / F. Hirzebruch, K. H. Mayer
Pubbl/distr/stampa	Berlin : Springer, 1968
Descrizione fisica	1 online resource
Collana	Lecture notes in mathematics, 0075-8434 ; 57
Classificazione	AMS 53C10
Altri autori (Persone)	Mayer, K. H.
Disciplina	516.3604
Soggetti	G-structures
Lingua di pubblicazione	Tedesco
Formato	Software
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910346938203321
Autore	Torrent Moreno Marc
Titolo	Inter-vehicle communications - achieving safety in a distributed wireless environment. Challenges, systems and protocols
Pubbl/distr/stampa	KIT Scientific Publishing, 2007
ISBN	1000007058
Descrizione fisica	1 online resource (XVI, 142 p. p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This thesis contributes to the development of inter-vehicle communications with the goal of enhancing vehicular active safety. The wireless technology IEEE 802.11p is analyzed with an extended network simulator. As a result, challenges and design criteria for vehicular communication systems are defined. Finally, strategies for channel congestion avoidance and information dissemination are proposed, constituting a robust design to cope with unreliable and saturated wireless channel conditions.
