

1. Record Nr.	UNINA9910346950603321
Autore	Richter Matthias
Titolo	Über lernende optische Inspektion am Beispiel der Schüttgutsortierung
Pubbl/distr/stampa	KIT Scientific Publishing, 2018
ISBN	1000085620
Descrizione fisica	1 electronic resource (XVI, 283 p. p.)
Collana	Schriftenreihe Automatische Sichtprüfung und Bildverarbeitung
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Automated visual inspection is an integral part in industrial manufacturing processes, but development and setup of such systems is very costly. Machine learning significantly reduces the effort of and speeds up both tasks. This work develops several machine learning methods suitable for automated visual inspection. The methods augment each other and can be used for a wide range of products.
