Autore	Schoknecht Andreas
Titolo	Ähnlichkeitsbasierte Suche in Geschäftsprozessmodelldatenbanken
Pubbl/distr/stampa	KIT Scientific Publishing, 2018
Descrizione fisica	1 electronic resource (XII, 263 p. p.)
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The reuse of process models is a promising technique to reduce modelling effort. Yet, finding similar models in large model collections is not feasible manually. A search functionality for relevant models, which can be used as a template, is therefore helpful. This work describes multiple techniques for finding similar process models and activities in process model repositories.
