

1. Record Nr.	UNINA9910346958403321
Autore	Hennig Christian
Titolo	From Data Modeling to Knowledge Engineering in Space System Design
Pubbl/distr/stampa	KIT Scientific Publishing, 2017
ISBN	1-000-07368-8
Descrizione fisica	1 electronic resource (xiii, 281 p. p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The technologies currently employed for modeling complex systems, such as aircraft, spacecraft, or infrastructures, are sufficient for system description, but do not allow deriving knowledge about the modeled systems. This work provides the means to describe space systems in a way that allows automating activities such as deriving knowledge about critical parts of the system's design, evaluation of test success, and identification of single points of failure.
