

1. Record Nr.	UNINA9910347051203321
Autore	Stengel Julian
Titolo	Akteursbasierte Simulation der energetischen Modernisierung des Wohngebäudebestands in Deutschland
Pubbl/distr/stampa	KIT Scientific Publishing, 2014
ISBN	1000041854
Descrizione fisica	1 online resource (XXIII, 544 p. p.)
Collana	Produktion und Energie / Karlsruher Institut für Technologie, Institut für Industriebetriebslehre und industrielle Produktion u. Deutsch-Französisches Institut für Umweltforschung
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	In this book, the stakeholder-based residential building and household simulation model AWOHM is developed and applied to the Federal Republic of Germany. It aims at the identification and the conceptual design of adequate policy instruments in the field of residential/domestic heat use, with a focus on energy-related refurbishments. The model application results in policy instruments that are adapted to the characteristics of the buildings as well as their owners and users.
