

1. Record Nr.	UNINA9910347053603321
Autore	Körner Sven J
Titolo	RECAA - Werkzeugunterstützung in der Anforderungserhebung
Pubbl/distr/stampa	KIT Scientific Publishing, 2014
ISBN	1000039460
Descrizione fisica	1 electronic resource (XX, 256 p. p.)
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Natural language is the main means to state requirements in software development. Today, requirements engineering is the first and main part of the software development and is mainly manual. These processes are error prone and depend on the experience and skills of the requirements analyst. The goal of this work is to automate parts of these manual processes with software tools.
