

1. Record Nr.	UNINA9910347054803321
Autore	Pölz Stefan
Titolo	Personalised body counter calibration using anthropometric parameters
Pubbl/distr/stampa	KIT Scientific Publishing, 2014
ISBN	1000038415
Descrizione fisica	1 online resource (XXVI, 205 p. p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book describes the development of a new method for personalisation of efficiency factors in partial body counting. Its achieved goal is the quantification of uncertainties in those factors due to variation in anatomy of the measured persons, and their reduction by correlation with anthropometric parameters. The method was applied to a detector system at the In Vivo Measurement Laboratory at Karlsruhe Institute of Technology using Monte Carlo simulation and computational phantoms.
