

1. Record Nr.	UNINA9910347054903321
Autore	Herrmann Franziska
Titolo	Farbmessung an LED-Systemen
Pubbl/distr/stampa	KIT Scientific Publishing, 2013
ISBN	1000038413
Descrizione fisica	1 online resource (IV, 124 p. p.)
Collana	Spektrum der Lichttechnik / Karlsruher Institut für Technologie (KIT), Lichttechnisches Institut
Soggetti	Physics
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The light distribution of LED-systems, especially the colour distribution gets more and more important. As white light of LED-systems is received in a different way than with incandescent or fluorescent lamps different the radiation can contain different colours. Part of this work was to develop a method to present and describe these color shadows based on the results of existing color measurement methods.
