Record Nr.	UNINA9910347931503321
Autore	Huddart David
Titolo	Outdoor Recreation : Environmental Impacts and Management / / by David Huddart, Tim Stott
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Palgrave Macmillan, , 2019
ISBN	3-319-97758-X
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (xxxii, 466 pages) : illustrations, maps
Disciplina	333.78
Soggetti	Environmental geography Physical geography Environment Applied ecology Nature conservation Environmental education Environmental Geography Physical Geography Environment Studies Applied Ecology
	Nature Conservation Environmental and Sustainability Education
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1: Introduction to Outdoor Recreation and Recreation Ecology Chapter 2: Recreational Walking Chapter 3 Mountain Marathons, Adventure Racing, and Mountain Tours Chapter 4 Recreational Climbing and Scrambling Chapter 5 Gorge Walking, Canyoneering, or Canyoning Chapter 6 Off-Road and All-Terrain Vehicles, Including Snowmobiling Chapter 7 Mountain Biking Chapter 8 Camping, Wild Camping, Snow Holing, and Bothies Chapter 9 Horseback Riding Chapter 10 Geocaching, Letterboxing, and Orienteering Chapter 11 Skiing, Snowboarding, and Snowshoeing Chapter 12 CavingChapter 13 Water Sports and Water-Based

1.

	Recreation Chapter 14 Recreational Scuba Diving and Snorkelling Chapter 15 Recreational Fishing Chapter 16 Expeditions Chapter 17 Overall Summary
Sommario/riassunto	This textbook presents a comprehensive overview of the environmental impacts of various types of outdoor recreation, and how these can be best managed. As a field of study, recreational ecology is both multidisciplinary and interdisciplinary, and the authors seek to develop a deeper understanding of both the role and function of the factors that influence visitor numbers and their impact. An accessible and comprehensive textbook, it features numerous types of outdoor recreational activities including hill walking, rock climbing, mountain marathons, skiing, scuba diving and more. Drawn from several global case studies, the authors estimate the current and future numbers involved in outdoor recreation, and how best these numbers can be managed. Effective visitor impact management actions arise from collaboration between recreation ecologists, social scientists, experienced recreation managers, recreation stakeholders and the recreationalists themselves: as such, this book will be multidisciplinary in scope. This practical and engaging textbook will be invaluable to students and scholars of outdoor recreation and adventure tourism as well as practitioners and managers working in the field. David Huddart is Emeritus Professor at Liverpool John Moores University, UK. He has extensive experience teaching landscape interpretation, recreation ecology, and outdoor and environmental education. Tim Stott is Professor of Physical Geography and Outdoor Education programmes for 25 years.
