Grenoble and Oxfordshire; 8. Stanford, Louisville and Princeton; 9. Conclusions; References and further reading; Index
Sommario/riassunto	Universities are increasingly expected to be at the heart of networked structures contributing to society in meaningful and measurable ways through research, the teaching and development of experts, and knowledge innovation. While there is nothing new in universities' links with industry, what is recent is their role as territorial actors. It is government policy in many countries that universities - and in some countries national laboratories - stimulate regional or local economic

development. Universities, Innovation and the Economy explores the implications of this expecta
