Sommario/riassunto	This new book discusses the extent to which the Japanese economy encourages entrepreneurship and innovation. Although Japan has a strong reputation as an innovator, some people argue that this reputation is misplaced. Contrary to earlier expectations, the USA rather than Japan emerged as the leader in the biotech industries in the 1990s, and also many small firms in Japan supply only a few - or just

one - other company, thereby limiting their view of the marketplace and the commercial opportunities within it. Despite the increase of international patents, international scientific cit
