	Sommario/riassunto	Focusing on the issues associated with migrating for work both in and from the Asian region, this book sheds light on the debate over migration and trafficking. With contributions from an international

team of well-known scholars, the book sets labour migration firmly within the context of globalization, providing a focused, contemporary discussion of what is undoubtedly a major twenty-first century concern.Transnational Migration and Work in Asia analyzes workers motivations and rationalities, highlighting the similarities of migration experiences throughout Asia.
