Sommario/riassunto

The Center for China Studies is among China's most influential think-tanks, and its China Studies Reports are read at the highest levels of government. Now for the first time, the most important of these reports is collected in book form in English, providing a fascinating insight into the challenges and opportunities for Chinese development and the government's thinking on economic and social issues. Including comparative studies with developed and developing nations, analysis of past economic performance and future trends, and effects of demographic shifts such as population ageing
