and Consumer Lending; 16. Capital Markets and Financial Integration in Europe; Index

Sommario/riassunto

Financial services firms play a key role in the European economy. The efficiency and profitability of these firms and the competition among them have an impact on allocation of savings, financing of investment, economic growth, the stability of the financial system and the transmission of monetary policy. This collection of research contributions includes evaluations of trends in the European financial service industry and examinations of the driving forces of efficiency, competition and profitability of financial firms and institutions in Europe. The papers have been written
