Titolo	Mobility Analytics for Spatio-Temporal and Social Data : First International Workshop, MATES 2017, Munich, Germany, September 1, 2017, Revised Selected Papers // edited by Christos Doulkeridis, George A. Vouros, Qiang Qu, Shuhui Wang
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-73521-7
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (IX, 177 p. 60 illus.)
Collana	Information Systems and Applications, incl. Internet/Web, and HCI ; ; 10731
Disciplina	302.3
Soggetti	Application software Database management Computers and civilization Geographical information systems Data mining Computer communication systems Information Systems Applications (incl. Internet) Database Management Computers and Society Geographical Information Systems/Cartography Data Mining and Knowledge Discovery Computer Communication Networks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

Sommario/riassunto

This book constitutes the refereed post-conference proceedings of the First International Workshop on Mobility Analytics for Spatio-Temporal and Social Data, MATES 2017, held in Munich, Germany, in September 2017. The 6 revised full papers and 2 short papers included in this volume were carefully reviewed and selected from 13 submissions. Also included are two keynote speeches. The papers intend to raise awareness of real-world problems in critical domains which require novel data management solutions. They are organized in two thematic sections: social network analytics and applications, and spatio-temporal mobility analytics.
