Ethics and public health policies -- 14. What is and what is not a  
conflict of interest in the sphere of public health.

---

Sommario/riassunto

This interdisciplinary volume gathers selected, refereed contributions on various aspects of public health from several disciplines and research fields, including the philosophy of science, epidemiology, statistics and ethics. The contributions were originally presented at the 1st Barcelona conference of "Philosophy of Public Health" (5th – 7th May 2016). This book is intended for researchers interested in public health and the contemporary debates surrounding it. .
