A Split Syzygy; Gill David -- "Steiner and Me": an Interview with Artist Teacher Mike Lawson-Smith; Mike Lawson-Smith -- CODA: Involution to Evolution; 'he made the future live before us'; Victoria de Rijke.

Sommario/riassunto

This book brings together Steiner's philosophical, biodynamic and cultural contributions to education, where 'spirit' and 'soul' are the creative elements in human evolution. His thought is applied to selected examples of innovative artistic practice and pedagogy of the present. This volume is intended for researchers in the arts and education with an interest in Rudolf Steiner's huge influence on educational thought and policy. This is an urgent point in time to reflect on the role of arts in education and what it might mean for our souls. An accessible yet scholarly study of interdisciplinarity, imagination and creativity is of critical widespread interest now, when arts education in many countries is threatened with near-extinction.
