transition bar; Restricting the resolution values in a transition; Preventing issue updates in selected statuses; Making a field required during workflow transition; Creating custom workflow transition logic; Sharing workflows with workflow bundles; Chapter 4: User Management; Introduction; Creating a new user; Inviting a new user to sign up; Enabling a public user sign up; Managing groups and group membership; Managing project roles; Managing default project role membership; Deactivating a user; Integrating and importing users from LDAP; Integrating with LDAP for authentication only; Integrating with Atlassian Crowd; Integrating with another JIRA instance for user information; Enabling JIRA as a user repository; Setting up single sign-on with Crowd; Setting up a Windows-domain single sign-on; Chapter 5: JIRA Security; Introduction; Granting access to JIRA; Granting JIRA System Administrator access; Controlling access to a project; Controlling access to JIRA issue operations; Setting up issue-level permissions; Restricting access to projects based on reporter permissions; Setting up password policies; Capturing electronic signatures for changes; Changing the duration of the remember me cookies; Changing the default session timeout; Chapter 6: E-mails and Notifications; Introduction; Setting up an outgoing mail server; Sending e-mails to users from JIRA; Sending notifications for issue updates; Creating custom events; Creating custom e-mail templates; Disabling outgoing notifications; Creating mail handlers to process incoming e-mails; Setting up a project-specific From address; Chapter 7: Integrating with JIRA

Sommario/riassunto

A comprehensive guide, full of practical recipes with real-life JIRA administration challenges, solutions, and examples with illustrations from the actual application. If you are an administrator who will be customizing, supporting, and maintaining JIRA for your organization, this book is for you. Familiarity with the core concepts of JIRA is essential. For some recipes, basic understanding in HTML, CSS, and JavaScript will also be helpful.

Implementation of Curriculum and Assessment Accreditation Standards in the English Language Program at KAU.

Sommario/riassunto

Greater student mobility, increasing demand for access to tertiary education, as well as policy changes have spurred rapid expansion of the global higher education sector. However, with increased demand comes considerable variation in the quality of the supply. As higher education is an expensive endeavor for all stakeholders – governments, funders, employers, and families – there are also increasing expectations for accountability and demonstrations of quality. English as a foreign language (EFL) programs, in particular, are under considerable pressure to substantiate their value, resulting in a significant rise in interest around their quality. This volume is the outcome of a May 2018 international conference on quality and specialized accreditation, held in Turkey. The book's three sections take the reader from the global to the program level, examining trends and best practices in quality assurance and accreditation in EFL programs. The book's geographic focus is primarily the Middle East and Turkey, yet the issues discussed herein are quite global in nature. This volume will be of interest to educational administrators at the institutional or program level, educational leadership programs focusing on higher education, language teacher preparation programs, and administrators in centralized education systems or accrediting organizations.
