

1. Record Nr.	UNINA9910349375703321
Titolo	Craniomaxillofacial Reconstructive and Corrective Bone Surgery // edited by Alex M. Greenberg, Rainer Schmelzeisen
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2019
ISBN	1-4939-1529-0
Edizione	[2nd ed. 2019.]
Descrizione fisica	1 online resource (856 pages)
Disciplina	617.52059
Soggetti	Plastic surgery Otorhinolaryngology Dentistry Plastic Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Preface -- Acknowledgments -- Contributors -- 1 Introduction -- Section I Basic Considerations in the Diagnosis of Craniomaxillofacial Bone Defects and Disorders -- 2 Evaluation of the Craniomaxillofacial Deformity Patient -- 3 Craniofacial Deformities: Etiologies, Distribution, and Classification -- 4 Etiology of Skeletal Malocclusion -- 5 Etiology, Distribution, and Classification of Traumatic Craniomaxillofacial Deformities and Defects -- 6 Etiology, Distribution, and Classification of Craniomaxillofacial Nasal Deformities -- 7 Benign Tumors of the Maxillofacial Region and Considerations for Bone Invasion -- 8 Oral Malignancies: Etiology, Distribution, and Treatment Considerations -- 9 Osteoradionecrosis and Bisphosphonate-related Osteonecrosis of the Jaws -- 10 A Classification System for Craniomaxillofacial Deformities -- Section II Biomechanics of Internal Fixation and Dental Implantology -- 11 Craniomaxillofacial Bone Healing, Biomechanics, and Internal Fixation -- 12 Bioresorbable Materials for Bone Fixation: Review of Biological Concepts and Mechanical Aspects -- 13 Advanced Bone Healing Concepts in Craniomaxillofacial Reconstructive and Corrective Bone Surgery -- 14 Basic Science of Stem Cell, Scaffolding, and Bone Morphogenic Protein in Craniomaxillofacial Reconstruction -- 15 Basic Dental Implantology -- 16 Localized Ridge Augmentation Using Guided Bone Regeneration -- 17 Maxillary Sinus Grafting and Osseointegration

Surgery -- 18 Computerized Tomography for Craniomaxillofacial  
Dental Implantology -- 19 Computerized Tomography Guided Surgical  
Decision Making in Primary Squamous Cell Carcinoma of the Oral Cavity  
-- 20 3D Imaging for Craniomaxillofacial Applications in Orthognathic  
and Facial Surgery Planning -- 21 Prosthodontic Considerations in  
Dental Implant Restoration -- Section III Craniomaxillofacial  
Reconstructive Bone Surgery -- 22 Aesthetic Considerations in  
Reconstructive and Corrective Craniomaxillofacial Bone Surgery -- 23  
Considerations for Reconstruction of the Head and Neck Oncologic  
Patient -- 24 Autogenous Bone Grafts in Maxillofacial Reconstruction  
-- 25 Microvascular Maxillofacial Reconstructive Bone Surgery -- 26  
Fixation of Bone Grafts for the Reconstruction of Mandibular Continuity  
Defects -- 27 Soft Tissue Flaps for Coverage of Craniomaxillofacial  
Osseous Continuity Defects with or Without Bone Graft -- 28  
Mandibular Condyle Reconstruction with Free Costochondral Grafting  
-- 29 Microsurgical Reconstruction of Large Defects of the Maxilla,  
Midface, and Cranial Base -- 30 Reconstruction of Defects of the  
Mandibular Angle -- 31 Mandibular Body Reconstruction -- 32  
Marginal Mandibulectomy -- 33 Reconstruction of Major Anterior  
Defects of the Mandible -- 34 Posttraumatic Osteomyelitis of the  
Mandible -- 35 Microvascular Reconstruction of the Condyle and the  
Ascending Ramus -- 36 Orbital Reconstruction -- 37 Nasal  
Reconstruction Using Bone Grafts and Rigid Internal Fixation -- 38  
Endoscopic Skull Base Surgery -- Section IV Craniomaxillofacial  
Corrective Bone Surgery -- 39 Orthognathic Examination and  
Treatment Planning -- 40 Planning for Bimaxillary Surgery and the  
Implications of Rigid Internal Fixation -- 41 Reconstruction of Cleft Lip  
and Palate Osseous Defects and Deformities -- 42 Maxillary  
Osteotomies -- 43 Mandibular Osteotomies -- 44 Genioplasty  
Techniques -- 45 Long-Term Stability of Maxillary and Mandibular  
Osteotomies -- 46 Le Fort II and Le Fort III Osteotomies for Midface  
Reconstruction -- Section V Craniofacial Surgery -- 47 Craniofacial  
Deformities: Introduction and Principles of Management -- 48 Calvarial  
Bone Graft Harvesting Techniques -- 49 Crouzon Syndrome: Basic  
Dysmorphology and Staging of Reconstruction -- 50 Hemifacial  
Microsomia -- 51 Orbital Hypertelorism: Surgical Management -- 52  
Surgical Correction of the Apert Craniofacial Deformities -- 53  
Craniomaxillofacial Distraction Osteogenesis -- 54 Digital  
Technologies for Patient Specific Surgical Planning and Custom  
Implants -- 55 Principles and Techniques for Facial Allotransplantation.

---

## Sommario/riassunto

This in-depth revision of the successful first edition is one of the only books of its kind to cover the full range of craniomaxillofacial reconstructive and corrective bone surgery. This evolving field has a large number of contributions by worldwide clinicians covering new developments, especially in biomaterials, digital technologies, virtual surgical planning, patient specific implants, and navigation. These topics appeal to Oral and Maxillofacial Surgeons, Plastic Surgeons, ENT/Head and Neck Surgeons, and Neurosurgeons. Complete with updates on popular topics from the first edition, such as advanced jaw reconstruction with stem cells and tissue engineering, wide varieties of microvascular flaps, orthognathic surgery, endoscopic skull base surgery, dental implantology, craniofacial surgery and facial allotransplantation.
