ISBN	1-4471-4999-8
Descrizione fisica	1 online resource (C, 2300 p. 1000 illus. in color.)
Disciplina	616.12
Soggetti	Cardiology Pediatrics Critical care medicine Cardiac surgery Pediatric surgery Anesthesiology Intensive / Critical Care Medicine Cardiac Surgery Pediatric Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This thoroughly updated key reference is an innovative project that provides a continuous editorial effort to update scholarly information related to the comprehensive prevention, management and follow-up of congenital and acquired cardiac pathologies. It illustrates the need for interdisciplinary collaboration and evidence-based practices as well as perspectives of future modalities of patient care. Included are interactive videos with the most common interventions, online access to practical learning activities and to the comprehensive scores and database information. This second edition of Pediatric and Congenital Cardiology, Cardiac Surgery and Intensive Care is a universal and practical review of management of critically ill children and adults with congenital heart disease, based upon taskforce decisions and the

cumulative experience of the world leaders in the field. .
