1. Record Nr.   UNINA9910349386403321

   Titolo   Mining Intelligence and Knowledge Exploration : 6th International
                        Conference, MIKE 2018, Cluj-Napoca, Romania, December 20–22,
                        2018, Proceedings / / edited by Adrian Groza, Rajendra Prasath

   Pubbl/distr/stampa   Cham : , : Springer International Publishing : , : Imprint : Springer, ,
                        2018

   ISBN   3-030-05918-9

   Edizione   [1st ed. 2018.]

   Descrizione fisica   1 online resource (XIII, 386 p. 182 illus., 98 illus. in color.)

   Collana   Lecture Notes in Artificial Intelligence ; ; 11308

   Disciplina   006.3
                        006.312

   Soggetti   Artificial intelligence
                        Artificial Intelligence

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di bibliografia   Includes bibliographical references and index.

   Nota di contenuto   Evolutionary computation -- Knowledge exploration in IoT -- Artificial
                        intelligence -- Machine learning -- Image processing -- Pattern
                        recognition -- Speech processing -- Information retrieval -- Natural
                        language processing -- Social network analysis -- Security -- Fuzzy
                        rough sets.

   Sommario/riassunto   This book constitutes the refereed conference proceedings of the 6th
                        International Conference on Mining Intelligence and Knowledge
                        Exploration, MIKE 2018, held in Cluj-Napoca, Romania, in December
                        2018. The 33 full papers presented were carefully reviewed and
                        selected from 93 submissions. The papers were grouped into various
                        subtopics including evolutionary computation, knowledge exploration
                        in IoT, artificial intelligence, machine learning, image processing,
                        pattern recognition, speech processing, information retrieval, natural
                        language processing, social network analysis, security, and fuzzy rough
                        sets.
