1. Record Nr.   UNINA9910349393503321

   Titolo   Intelligent Human Computer Interaction : 10th International
                           Conference, IHCI 2018, Allahabad, India, December 7–9, 2018,
                           Proceedings / / edited by Uma Shanker Tiwary

   Pubbl/distr/stampa   Cham : , : Springer International Publishing : , : Imprint : Springer, ,
                           2018

   ISBN   3-030-04021-6

   Edizione   [1st ed. 2018.]

   Descrizione fisica   1 online resource (XIII, 318 p. 177 illus., 111 illus. in color.)

   Collana   Information Systems and Applications, incl. Internet/Web, and HCI ; ;
                           11278

   Disciplina   004.019

   Soggetti   User interfaces (Computer systems)
                           Human-computer interaction
                           Information storage and retrieval systems
                           Artificial intelligence
                           Computer vision
                           Pattern recognition systems
                           User Interfaces and Human Computer Interaction
                           Information Storage and Retrieval
                           Artificial Intelligence
                           Computer Vision
                           Automated Pattern Recognition

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di contenuto   ECG, EEG -Based and Other Multimodal Interactions -- Natural
                           Language, Speech and Dialogue Processing -- Modeling Human
                           Cognitive Processes and Simulation -- Image and Vision Based
                           Interactions -- Applications of HCI.

   Sommario/riassunto   This book constitutes the thoroughly refereed proceedings of the 10th
                           International Conference on Intelligent Human Computer Interaction,
                           IHCI 2018, held in Allahabad, India, in December 2018. The 28 regular
                           papers presented were carefully reviewed and selected from 89
                           submissions. The papers have been organized in the following topical
                           sections: ECG, EEG -based and Other Multimodal Interactions; Natural

Language, Speech and Dialogue Processing; Modeling Human Cognitive Processes and Simulation; Image and Vision Based Interactions; and Applications of HCI.
