Sommario/riassunto	This book constitutes the refereed proceedings of the 8h International Conference on Model and Data Engineering, MEDI 2018, held in

Marrakesh, Morocco, in October 2018. The 23 full papers and 4 short papers presented together with 2 invited talks were carefully reviewed and selected from 86 submissions. The papers covered the recent and relevant topics in the areas of databases; ontology and model-driven engineering; data fusion, classification and learning; communication and information technologies; safety and security; algorithms and text processing; and specification, verification and validation.
