1. Record Nr.   UNINA9910349406403321

   Titolo   RoboCup 2017: Robot World Cup XXI / / edited by Hidehisa Akiyama,
                       Oliver Obst, Claude Sammut, Flavio Tonidandel

   Pubbl/distr/stampa Cham : , : Springer International Publishing : , : Imprint : Springer, ,
                       2018

   ISBN   3-030-00308-6

   Edizione   [1st ed. 2018.]

   Descrizione fisica 1 online resource (XII, 522 p. 237 illus.)

   Collana   Lecture Notes in Artificial Intelligence ; ; 11175

   Disciplina   629.892

   Soggetti   Artificial intelligence
                       Special purpose computers
                       Software engineering
                       Computer security
                       Optical data processing
                       User interfaces (Computer systems)
                       Artificial Intelligence
                       Special Purpose and Application-Based Systems
                       Software Engineering
                       Systems and Data Security
                       Image Processing and Computer Vision
                       User Interfaces and Human Computer Interaction

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   Includes index.

   Nota di contenuto   Robotics -- Artificial Intelligence -- Environment Perception -- State
                       estimation -- Pattern recognition -- Robots -- Computer Vision --
                       Machine learning -- Humanoid Robot.

   Sommario/riassunto This book includes the post-conference proceedings of the 21st
                       RoboCup International Symposium, held in Nagoya, Japan, in
                       September 2017. The 33 full revised papers and 9 papers from the
                       winning teams presented were carefully reviewed and selected from 58
                       submissions. The papers are orginazed on topical sections on Robotics,
                       Artificial intelligence, Environment perception, State estimation and
                       much more. .
