Sommario/riassunto	Focusing solely on well-known religions is an approach that impoverishes religious studies. Rather, this book introduces the diverse religious experience of Africans, Native Americans, and the indigenous peoples of Australia, providing a comprehensive introduction to the study of religion and broadening the horizons of religious studies students.

Sommario/riassunto

This book constitutes the proceedings of the 10th International Conference on Internet and Distributed Computing Systems, IDCS 2017, held in Mana Island, Fiji, in December 2017. The 16 full papers presented were carefully reviewed and selected from 40 submissions. The papers focus on emerging models, paradigms, technologies and novel applications related to Internet-based distributed systems, including Internet of Things, cyber-physical systems, wireless sensor networks, next-generation collaborative systems, extreme-scale networked systems, and cloud-based big data systems.
