

1. Record Nr.	UNINA9910349443803321
Titolo	Resistance to Targeted Therapies in Lymphomas // edited by Ana C. Xavier, Mitchell S. Cairo
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-24424-5
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (XX, 210 p. 27 illus., 26 illus. in color.)
Collana	Resistance to Targeted Anti-Cancer Therapeutics, , 2196-5501 ; ; 21
Disciplina	614.5999 616.99446
Soggetti	Lymphomas - Treatment Drug resistance Lymphoma - therapy Molecular Targeted Therapy Drug Resistance, Neoplasm
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Mechanisms of Glucocorticoid Response and Resistance in Lymphoid Malignancies -- Resistance to Monoclonal Antibody Therapeutics in Lymphoma -- Resistance to Antibody-Drug Conjugate -- Resistance to Proteasome Inhibitor Therapy in Non-Hodgkin Lymphoma -- Resistance to Histone Deacetylase Inhibitors in the Treatment of Lymphoma -- Resistance to Bruton's Tyrosine Kinase Signaling Pathway Targeted Therapies -- Resistance to Checkpoint Blockade Inhibitors and Immunomodulatory Drugs -- Resistance to Bispecific T-cell Engagers and Bispecific Antibodies -- Resistance to Chimeric antigen receptor T-cell therapy -- Index.
Sommario/riassunto	This volume will review different classes of "target" drugs that have been developed, approved, or are under investigation in the field of lymphoma therapy. The discussion will not only be on the understanding of the mechanisms of action or clinical response of those agents, but also help the reader to understand the nature of lymphoma biology in patients who relapse or are refractor after exposure to those drugs. Contributors will discuss what is currently

known about mechanisms of tumor-related or host-related resistance, and how to overcome this resistance. This understanding is crucial given the dismal outcomes of patients with relapsed or refractory lymphomas. The book provides a unique opportunity to review and reflect on the recent successes and pitfalls of the modern lymphoma therapy era. .
