Autore	Ružbarský Juraj
Titolo	Al-Si Alloys Casts by Die Casting : A Case Study / / by Juraj Ružbarský
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-25150-0
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (79 pages)
Collana	SpringerBriefs in Applied Sciences and Technology, , 2191-530X
Disciplina	673.52253 671.253
Soggetti	Metals Machinery Materials science Metallic Materials Machinery and Machine Elements Characterization and Evaluation of Materials
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Current State of the Art -- Analysis of the Production Process -- Characteristics of the Cast -- Characteristics of Technological Parameters -- Cast Testing -- Characteristics of a Production Process -- Characteristics of the Cast -- Technological Parameters of Die Casting -- Assessment of Tensile Strength Rm -- Assessment of Cast Porosity -- Perspectives -- Conclusion.
Sommario/riassunto	This book presents a study on the influence of selected technological parameters of die casting upon strength and use properties of Al-Si alloy casts produced in die casting. It contains a theoretical part describing the principles of casting technology, and its practical part revolves around the relationship between selected technological parameters of die casting in regard to strength and use properties represented by tensile strength and porosity of die casts. .
