Sommario/riassunto	This volume engages in conversation with the thinking and work of Max Charlesworth as well as the many questions, tasks and challenges in academic and public life that he posed. It addresses philosophical, religious and cultural issues, ranging from bioethics to Australian Songlines, and from consultation in a liberal society to intentionality.

The volume honours Max Charlesworth, a renowned and celebrated Australian public intellectual, who founded the journal *Sophia*, and trained a number of the present heirs to both *Sophia* and academic disciplines as they were further developed and enhanced in Australia: Indigenous Australian studies, philosophy of religion, the study of the tension between tradition and modernity, phenomenology and existentialism, hermeneutics, feminist philosophy, and philosophy of science that is responsive to environmental issues.
