

1. Record Nr.	UNINA9910349551003321
Titolo	Handbook of Research Ethics and Scientific Integrity [[electronic resource] /] / edited by Ron Iphofen
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-319-76040-8
Disciplina	174.9
Soggetti	Research—Moral and ethical aspects Social sciences Research Ethics Humanities and Social Sciences, multidisciplinary Social Sciences, general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This handbook is a 'one-stop shop' for current information, issues and challenges in the fields of research ethics and scientific integrity. It provides a comprehensive coverage of research and integrity issues, both within researchers' 'home' discipline and in relation to similar concerns in other disciplines. The handbook covers common elements shared by disciplines and research professions, such as consent, privacy, data management, fraud, and plagiarism. The handbook also includes contributions and perspectives from academics from various disciplines, treating issues specific to their fields. Readers are able to quickly source the most comprehensive and up-to-date information, protagonists, issues and challenges in the field. Experienced researchers keen to assess their own perspectives, as well as novice researchers aiming to establish the field, will equally find the handbook of interest and practical benefit. It saves them a great deal of time in sourcing the disparate available material in these fields and it is the first 'port of call' for a wide range of researchers, research advisors, funding agencies and research reviewers. The most important feature is

the handbook's ability to provide practical advice and guidance to researchers in a wide range of disciplines and professions to help them 'think through' their approach to difficult questions related to the principles, values and standards they need to bring to their research practice.
