Descrizione fisica	1 online resource (316 pages)
Disciplina	618.9297
Soggetti	Pediatrics Allergy Diseases Immunology Allergology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book comprises a collection of case-based chapters, submitted by physicians and pediatricians in all specialties and meticulously refined and selected to cover the most common and important aspects of Pediatric Allergy knowledge. Commonly encountered disorders such as allergic rhinitis, food allergy, and atopic dermatitis are covered among many others. Each chapter starts with a brief of the initial presentation and lab data of the patient, followed by a series of 3-6 multiple choice questions (MCQs), leading the reader to the diagnosis and best of practice in a step-wise manner. Clinical pearls presented as "practical points", and the MCQ format along with detailed answers, makes Pediatric Allergy an essential reading material that a pediatric allergologist cannot afford to miss.
