

1. Record Nr.	UNINA9910350197103321
Autore	Rey Freddy
Titolo	Restaurer les milieux et prévenir les inondations grâce au génie végétal
Pubbl/distr/stampa	éditions Quae, 2018
ISBN	2-7592-2778-2
Descrizione fisica	1 online resource (116)
Collana	Matière à débattre et Décider
Soggetti	Flood control
Lingua di pubblicazione	Francese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Public policies in France and in Europe obligate decision makers to consider an integrated management of habitats and territories that combines several benefits. This book provides innovative vegetation engineering solutions for reconciling habitat restoration with flood prevention.
