Sommario/riassunto	This is the first English book on the economic relations between China and Latin America written by Chinese scholars. The authors are all from the Institute of Latin American Studies, Chinese Academy of Social Sciences — China's premier think tank. By combining empirical techniques and political-economic analysis, it investigates the history

of and the outlook for China-Latin America relations. It offers readers insights into the Chinese perspective and an evaluation of the development of the relations between the two parties.
